

HVAC Service Technician - Job Overview

This role functions in repairs, modifications, and installations of various components of HVAC systems as well as completing troubleshooting and maintenance work.

- Basic troubleshooting of both air- and water-cooled HVAC equipment as well as PTAC units, water sourced heat pumps, and VRF systems.
- Completing preventative maintenance of HVAC systems.

Work Qualifications:

- Strong problem solving and critical thinking skills.
- Overtime availability.
- Self-motivated and willingness to take initiative.
- Enthusiasm in taking on assignments/responsibilities and willingness to learn.
- Detail oriented, taking pride in your work with a focus on quality.
- Excellent communication skills.
- Capable of working in a professional environment and providing great customer service.
- Willingness to adhere to company policies and procedures.
- Ability to meet physical requirements of position.
- High school diploma or GED.
- Applicable industry training and certifications: OSHA 10, EPA 608 Certified etc. are preferred.

Additional responsibilities could include:

- Driving a company vehicle;
- Lifting tools, materials and equipment; and
- Performing other miscellaneous tasks to support the operation, when needed.

Supplemental pay types:

- Commission pay on quoted repairs.
- Sign-on bonus to qualified candidates.

Experience:

- HVAC: 5 years (Strongly Preferred). Less than 5 years of relevant work experience will be considered. Applicable hourly compensation is DOE (dependent on experience).

License/Certification:

- Driver's License (Required)
- EPA Universal (Required)
- Texas TDLR registration (Required)

We offer competitive compensation and a supportive work environment with a collaborative and innovative team. Apply today to be part of our dynamic team!
