

BIM / VDC Detailer, Sheetmetal / Ductwork

Job Overview:

Our continued growth has resulted in the need for an experienced Sheetmetal/Ductwork BIM/VDC Detailer to join our Virtual Design & Construction group.

Key Responsibilities:

This role will create working shop drawings of complex nature using advanced detailing techniques from engineering documents that are used to support shop fabrication and field installation on various construction projects.

This includes coordinating drawings with other trades and working closely with assigned Project Managers, Construction Supervisors, field personnel, vendors, and design engineers.

Qualifications/Requirements:

- Field experience with HVAC systems is required.
- Strong working knowledge of duct systems is required.
- Technical knowledge and experience with AutoCAD preferred but willing to train the right candidate.
- Problem solving/analytical skills and strong communication skills in keeping projects on track.

Join our team and contribute to the success of our innovative and high impact projects. We offer competitive compensation/benefits package and a supportive work environment with a collaborative innovative team. Apply today to be part of our dynamic team!
